

# TRENDnet<sup>®</sup> Hive

## EASY NETWORK CLOUD MANAGEMENT

Save on costs & time.  
Centralize network management & monitoring.  
Remote access & more.

LEARN MORE, VISIT [www.TRENDnet.com/HIVE](http://www.TRENDnet.com/HIVE)

TRENDnet Hive is a cloud management platform that provides a centralized cloud-based, remote network management solution for TRENDnet network devices. Select TRENDnet network devices can be connected to the Hive cloud management platform. The TRENDnet Hive cloud networking solution offers better overall visibility of your network devices from a single intuitive and easy-to-use cloud interface.

Advanced features supported with the Hive cloud networking solution include event and device hardware monitoring, traffic statistics, notification alerts, and troubleshooting tools. With the TRENDnet Hive network cloud manager, network device provisioning can be more easily accomplished through scheduled or immediate deployment of batch firmware and configuration updates. Reduce the time, complexity, and management costs of your network with the reliable TRENDnet Hive cloud networking solution.

- Centralized cloud-based management
- Overview of devices, clients, and system logs
- View user and traffic statistics, and device lists
- Multi-site management (Pro version only)
- Better visibility of your network devices
- Access, manage, configure, and troubleshoot your network devices remotely
- Event/hardware device monitoring
- Provisioning through scheduled batch firmware or configuration updates
- Service-Level Agreement (SLA) guaranteed 99.9 percent uptime
- Works with TRENDnet Hive enabled network devices
- Free iOS<sup>®</sup> and Android<sup>™</sup> mobile apps

## Cloud-Based Management

Cloud networking allows TRENDnet Hive users to remotely access, manage, configure, monitor, and troubleshoot network devices at different locations from a single intuitive and easy-to-use cloud-based interface.

## Ease of Scalability

Add network devices without concern for additional hardware resources, such as dedicated PCs and server hardware for device management. Schedule deployment of batch firmware and configuration updates from the cloud.

## 24/7 Availability

Service-Level Agreement (SLA) guaranteed 99.9 percent uptime and service availability alleviates the need, time, costs, and maintenance for a dedicated management server in your internal network.

## HIVE FEATURES

### Cloud-Based Management

TRENDnet Hive network cloud manager provides better overall visibility of your network devices from a single intuitive and easy-to-use cloud interface

### Ease of Provisioning

Schedule batch firmware upgrades and configuration updates for deployment from the cloud for your network devices. Create and customize configuration files in the cloud and review records of when firmware and configuration update tasks were carried out

### Reduce time and management costs

Reduce maintenance time and costs by moving network device access to the cloud

### Hassle-Free Remote Monitoring

Remote network management support allows you to monitor your network devices from the cloud with device uptime, detailed logging, traffic statistics, event snapshots, and device health (processor/memory hardware and PoE budget utilization)

### Intuitive Alerts and Notifications

Choose customized alerts and notifications to be sent based on exceeded thresholds (CPU/memory), or events (port link status, device offline, switch loop)

### Minimal Downtime

Service-Level Agreement (SLA) guaranteed 99.9 percent uptime and service availability

## HIVE COMPATIBLE DEVICES

The TRENDnet Hive cloud networking platform is compatible with select business-class TRENDnet devices. We are working to add more devices, such as wireless and industrial solutions, to the Hive compatibility list and ecosystem. Upgrade your TRENDnet devices to the latest firmware to enable access to TRENDnet Hive.

#### WEB SMART SWITCHES

- TEG-082WS (v2.XR)
- TEG-204WS (v1.XR)
- TEG-284WS (v1.XR)
- TEG-524WS (v1.XR)
- TEG-30284 (v2.XR)

#### PoE WEB SMART SWITCHES

- TPE-082WS (v1.XR)
- TPE-1620WS (v2.XR)
- TPE-1620WSF (v1.XR)
- TPE-204US (v1.XR)
- TPE-2840WS (v2.XR)
- TPE-5028WS (v1.XR)
- TPE-5048WS (v1.XR)
- TPE-5240WS (v1.XR)
- TPE-30284 (v1.XR)

#### PoE ACCESS POINTS

- TEW-821DAP (v2.XR)
- TEW-825DAP (v1.XR)
- TEW-826DAP (v1.XR)
- TEW-921DAP (v1.XR)

## HIVE SUBSCRIPTION OPTION

Features	HIVE Premium	HIVE Pro
Multiple Device Management	Yes	Yes
Supports all selected TRENDnet devices	Yes	Yes
Easily Scalable	Yes	Yes
Device Configuration & Monitoring	Yes	Yes
Batch Firmware and Configuration Deployment	Yes	Yes
Notification Alerts	Yes	Yes
Mobile App (iOS® and Android™) (Coming soon)	Yes	Yes
Multiple Site Management	No	Yes
Multiple Tenant Management	No	Yes
Multiple User Accounts	No	Yes
Role-based User Privileges	No	Yes
Google Maps Location Service	No	Yes
Pricing	\$10 per device	Contact your authorized TRENDnet distributor
