

Microsoft 365 Education provides better value to schools than Google Workspace

The Microsoft 365 Education solution helps schools realize great value in many different ways. By partnering with Microsoft, you can:

Include all students at no extra cost using Student Use Benefits¹

Empower educators to unlock creativity and find more time to teach²

Provide students with the tools they need to learn their way³

Satisfy your Microsoft software needs in a single, cost effective, license

Take a look at an example of how Microsoft 365 provides better value than Google Workspace Plus in a district with 86,500 students and 3,800 faculty and staff⁴

	Microsoft 365 Education A3	Google Workspace for Education Plus
Total annual cost to your school	\$244,872	\$432,500
Annual License cost	\$64.44 / staff license	\$60.00 / student license⁵
License benefits	One paid staff license = 40 student licenses included through Student Use Benefits ¹	Four paid student licenses = one included staff license
You pay for	3,800 staff licenses	86,500 student licenses
Additional licenses provided	152,00 student licenses	21,625 covered staff licenses
Room to grow	65,500 student licenses	17,825 staff licenses

Microsoft 365 Education is the best choice to maximize your budget and prepare for your growing student population

1. Student Use Benefits provides free licenses to students when 100% of faculty and staff have a paid license at a rate of 40 students per paid faculty license
 2. Total Economic Impact Study – Forrester
 3. Microsoft Accessibility and Assistive Technologies for Education a TEI Analysis
 4. Enrollment numbers are based on an actual higher education school district.
 5. Based on published Google pricing of \$5 per student per year
