

Buffalo's New Enterprise-Class TeraStation 71210RH

The TS71210RH is Buffalo's new flagship 12-bay 2U rackmount network-attached storage. Designed for data-intensive modern IT environments, the TS71210RH delivers enterprise-level server performance for active data storage and backup as well as a secure and scalable platform for virtualization and cloud.

The TS71210RH's versatility and performance can be leveraged as a production data storage, large-scale data storage and backup, mission-critical file server, and more.

TS71210RH ships with enterprise-grade hard drives and rail kit included, and comes with 5-year warranty on all components with Next Business Day shipping for registered products along with 24/7 US-based technical support.

- Powerful production data storage
- Enterprise-grade hard drives included
- Up to 240TB total capacity
- Expandable RAM and NVMe Caching
- Made in Japan and TAA compliant
