WHAT'S NEW

DELL PREMIER COLLABORATION KEYBOARD – KB900

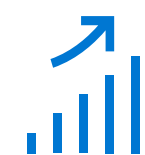

Collaborate effortlessly with the World's first rechargeable keyboard certified by Zoom¹, featuring touch controls, extensive connectivity options, backlighting and customizable keys.

**World's first collaboration
keyboard certified by Zoom¹**

EFFORTLESS AND SECURE COLLABORATION

Confidently control calls with illuminated Zoom touch controls, and effortlessly switch between up to 3 devices by pressing a key thanks to easy and secure Bluetooth and Dell Secure Link (RF) connectivity.

ENHANCED EFFICIENCY

Personalize your keyboard by creating shortcuts with 15 programmable keys and control the smart backlighting to work easily in the dark. Thoughtfully designed keys with scissor switch mechanism offer a responsive and quiet typing experience.

BUILT TO LAST

Recharge using USB-C and get up to 20 days battery life, or fast charge in one minute for a full day's use.² Enjoy peace of mind with the Dell 3-year Advanced Exchange Service.³

Product availability may vary by country, please refer to the product page on Dell.com for more information.

¹ Based on Dell analysis of publicly available information of competitive personal zoom room keyboards, August 2022.

² Battery life calculation based on an assumption of an average use of 8 hours a day. Battery life may vary depending on user and computing conditions.

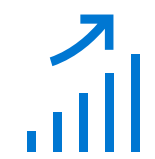

³ Advanced Exchange Service: Dell will send you a replacement product the next business day in most cases, if deemed necessary after phone/online diagnosis. Shipping times may vary by location. Fee charged for failure to return defective unit. See dell.com/servicecontracts/global.

WHAT'S NEW

DELL PREMIER RECHARGEABLE MOUSE – MS900

Masterfully crafted for optimal all-day comfort, this premium mouse features advanced four-way scrolling and long-lasting battery life.¹

COMFORT AND PRODUCTIVITY

Featuring a smooth, elegant design and comfortable grip, this premium mouse is designed for optimal full-day use while horizontal and vertical scroll wheels deliver more efficient navigation.

PERSONALIZED TO GET MORE DONE

Create shortcuts and customizations with Dell Peripheral Manager and five programmable buttons, and enjoy enhanced sensitivity and precision with adjustable DPI and smooth tracking on virtually all surfaces.

BUILT TO LAST

Enjoy up to three months¹ battery life on a single charge or fast charge via USB-C 1 min for half day use. Covered by the Dell 3-year Advanced Exchange Service.²

Product availability may vary by country, please refer to the product page on Dell.com for more information.

¹ Battery life calculation based on an assumption of an average use of 8 hours a day. Battery life may vary depending on user and computing conditions.

DELLTechnologies

**WEBCAM
& AUDIO**

WEBCAM & AUDIO

Collaboration solutions have become critical for organizations to stay connected. Engineered with intelligent features, Dell Webcam & Audio devices allow you to connect and collaborate with ease no matter where you work.

Webcams

Elevate your video-conferencing experience with Dell webcams that deliver professional-grade video quality with built-in intelligent features.

Headsets

Enjoy superior call clarity with these headsets that provide a comfortable and distraction-free calling experience. Collaborate with ease anywhere with our range of Teams and Zoom certified headsets, also compatible with leading UC platforms.

Speakerphones

Designed to provide clearer and easier communication, these speakerphones offer a great hands-free conferencing experience at home, at work or on the go.

Soundbars

Add a rich audio solution to your setup with Dell soundbars that perfectly complement your Dell monitors in design, offering a clean desk experience.

WEBCAM

WEBCAM KEY FEATURES

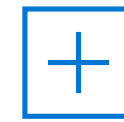

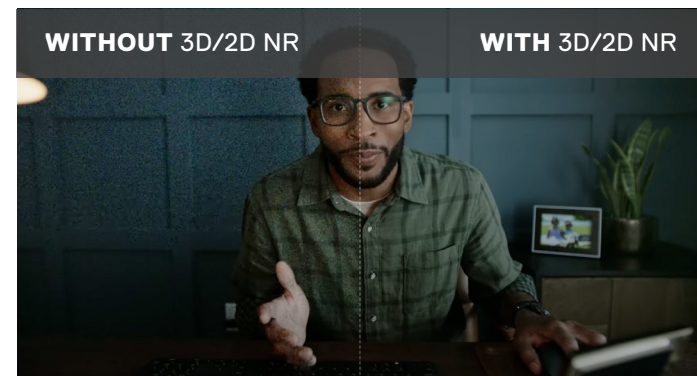

Look great, always

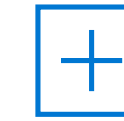

Engineered with intelligent features, Dell's webcams deliver sharp, bright and outstanding video quality, elevating your video conferencing experience.

Stunning clarity

Automatically eliminates grainy images

Look your best even in extreme lighting conditions

Intelligent framing to keep you centered

Get to work, fast

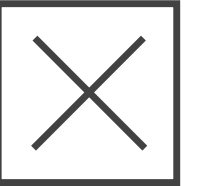

Adjustable Field of View (FOV)

Protect your webcam lens, and your privacy

All images shown on this page are for illustration purposes only. Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details.
1 Based on internal analysis of external 4K personal conferencing webcams, April 2012.

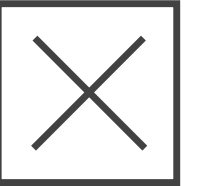

Automatically eliminates grainy images

Temporal Noise Reduction (3DNR) and Spatial Noise Reduction (2DNR) eliminates motion blur and grainy images, ensuring crisp and clear picture quality even in low light.

Product availability may vary by region and product features may vary by model; please refer to [Dell.com](https://www.dell.com) for more details.
All images shown on this page are for illustrative purposes only.

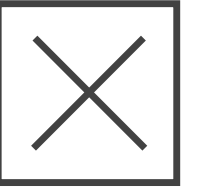

Look your best

The perfect combination of Digital Overlap HDR (DOL-HDR) and Facial Detection Auto Exposure (FDAE), automatically optimizes image quality to help you look your best, always.

Product availability may vary by region and product features may vary by model; please refer to [Dell.com](https://www.dell.com) for more details.
All images shown on this page are for illustration purposes only.

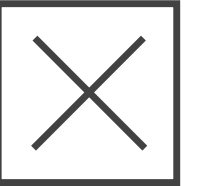

Intelligent framing to keep you centered

Advanced AI auto-framing tracks your movement, keeping you at the center of the frame, however you move.

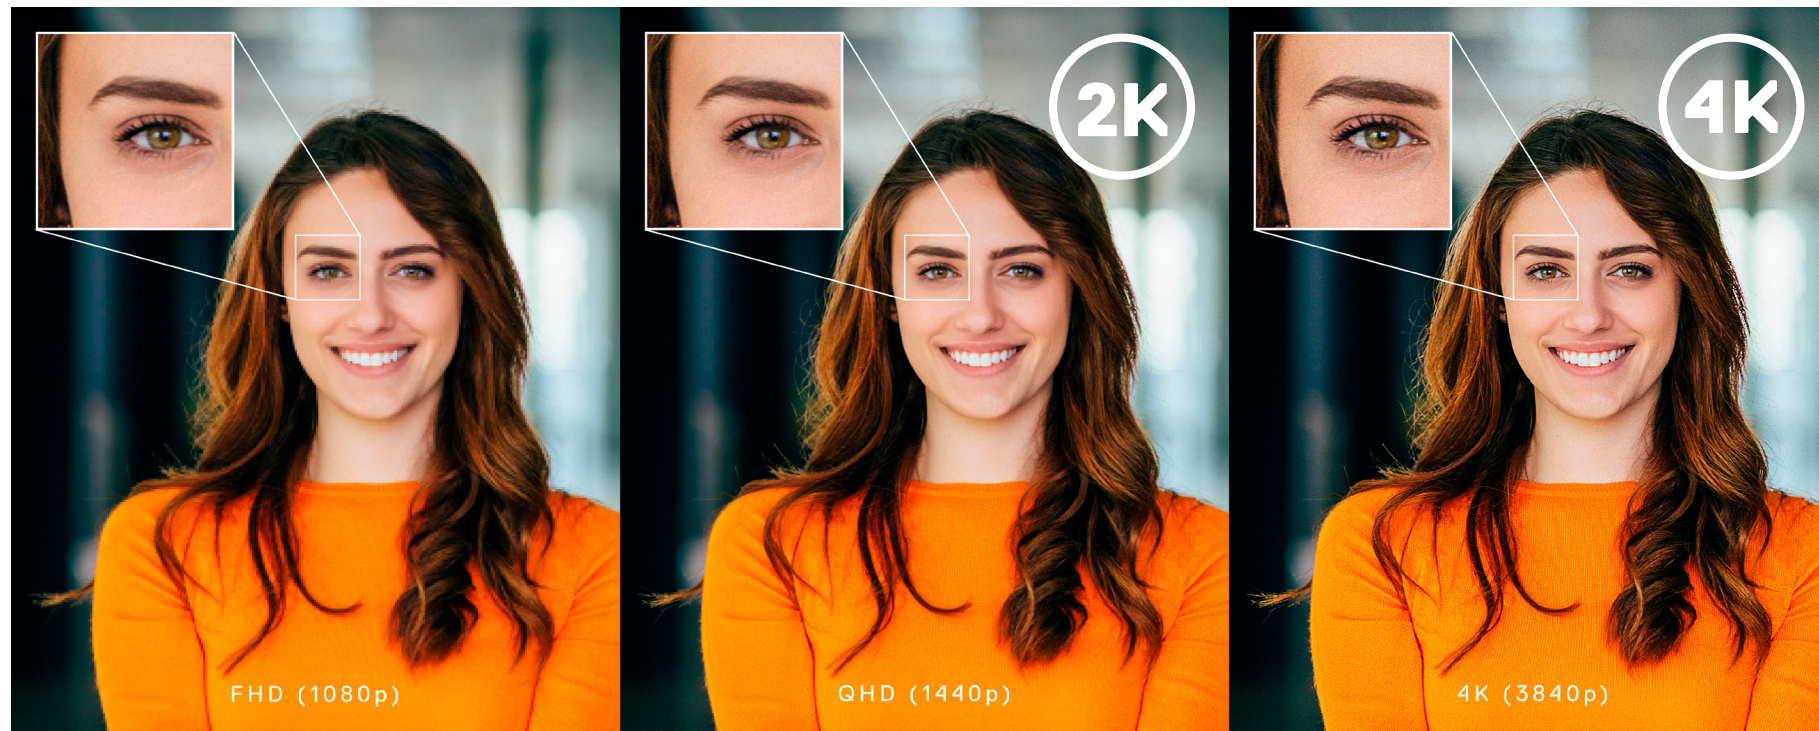

Product availability may vary by region and product features may vary by model; please refer to [Dell.com](https://www.dell.com) for more details.

Stunning clarity

Choose between a 4K UHD or a 2K QHD webcam with a large Sony STARVIS™ sensor, that takes in substantial light, providing vibrant images.

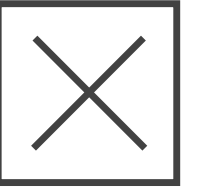

Industry Webcams

Dell Pro Webcam
- WB5023

Dell UltraSharp Webcam - WB7022

Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details. All images shown on this page are for illustrative purposes only.

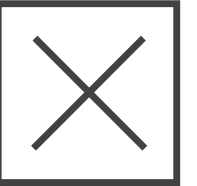

Dell ExpressSign-in

Dell ExpressSign-in detects your presence when you're close and uses Windows Hello to log you in. When you walk away, it locks your PC for increased security.

Product availability may vary by region and product features may vary by model; please refer to [Dell.com](https://www.dell.com) for more details.

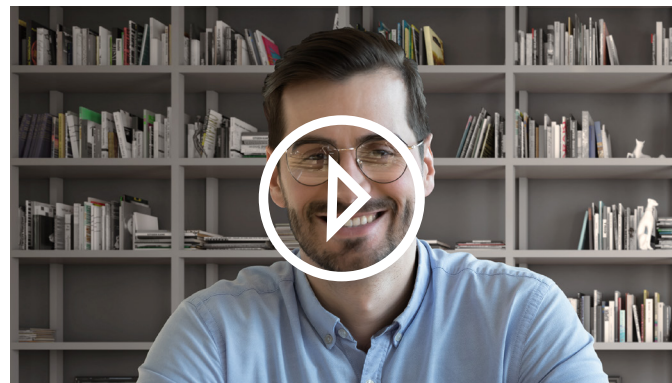

Tailor your presentation with adjustable Field of View (FOV)

Position the tilt adjustable camera (0-20°) to the angle you want and customize how much you want to show of your surroundings by adjusting your field of view to 65°, 78°, 90°. Get closer to your audience than ever before with up to 5X digital zoom.

65° FOV

Best for face-to-face conversations

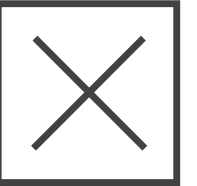

78° FOV

Keeps you as the main focal point of the scene while providing more context for your location.

90° FOV

Wide angle, ideal for showing objects or whiteboard content

Protect your webcam lens, and your privacy

A magnetic shutter cap allows you to effortlessly cover the webcam's lens for privacy and protecting it when not in use. When it's time for a call, the cap can be conveniently stowed behind the webcam.

DELLTechnologies

DELL DOCKS

FLEXIBILITY TO UPSCALE ACCORDING TO YOUR NEEDS

Upscale your workspace with a choice of devices that cater to your growing needs. Dell Docks offer the greatest compatibility across Dell laptops and are easy to deploy, manage and upgrade for added peace of mind.

Whether you're working from home, at the office or hotdesking, a Dell dock allows you to build customized and optimized workspaces with no compromise on power or performance.

When it's time to upgrade, our range of modular docks allows you to switch out your module to convert to Thunderbolt™ connectivity at a fraction of the cost.

Combined with streamlined management through a single firmware, and world-class Dell support and warranty, the latest docks represent a forward-looking investment to keep you powered and productive today and well into the future.

[Read More](#)

POWER PRODUCTIVITY WITH DELL DOCKS

FASTEST CHARGING

Increase your power delivery and charge faster with docks that deliver **up to 210W** of power. ExpressCharge allows for an **80%** charge on your PC's battery in one hour¹, while ExpressCharge Boost provides **35% charge in 20 minutes** on compatible systems².

ENHANCED PRODUCTIVITY

Enhance productivity with Dell's powerful docks and connect multiple monitors and accessories with a wide range of connectivity options.

FUTURE-READY DESIGN

Dell offers a line of docks that are the first in the world to feature a modular design letting you upgrade connectivity and power³ when you need it.

[Find out more about modular docks](#)

[Read More](#)

INTELLIGENT MANAGEMENT

Streamline the deployment and management of all the docks in the family with a single firmware, regardless of their connectivity. Perform firmware updates in minutes without needing to reboot the system.

SUPPORT

Dell Docks come with a 3-year Advanced Exchange Service.⁴ If a replacement becomes necessary, Dell will send a new dock the next business day during your Limited Hardware Warranty period.⁵

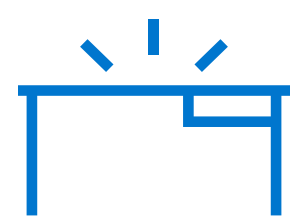

Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details. ¹ Within Dell Power Manager software, selecting ExpressCharge™ can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance. ² Within Dell Power Manager software, selecting either the Default mode of Adaptive Charge or ExpressCharge™ can recharge system battery from 0% up to 35% within 20 minutes when system is powered-off and battery temperature is between 16-45 degrees C. With ExpressCharge™ mode enabled, the system battery can then continue charging up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance. ³ Based on Dell internal analysis, February 2019. ⁴ Advanced Exchange Service: Dell will send you a replacement dock the next business day in most cases, if deemed necessary after phone/online diagnosis. Shipping times may vary by location. Fee charged for failure to return defective unit. See dell.com/servicecontracts/global. ⁵ 3-year Limited Hardware Warranty is extendable to 5 years with additional fee.

WHAT'S NEW

DELL DUAL CHARGE DOCK – HD22Q

Power your productivity with the world's first laptop docking station with a wireless charging stand for Qi-enabled smartphones and earbuds.¹

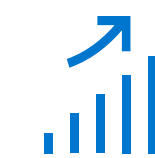

WORKSPACE FLEXIBILITY

Compact and innovative with centered cabling, this dock saves desk space, reduces cable clutter and integrates seamlessly into your home office.

CONVENIENT CHARGING

Charge your laptop, USB peripherals and Qi-enabled smartphone or earbuds simultaneously,¹ using the convenient upright stand. Continue to access the applications on your smartphone in landscape or portrait mode.

CONNECTED PRODUCTIVITY

Connect to multiple devices and displays with the latest ports for video and data. Get to work quickly with the Wake-on-Dock feature that wakes your laptop when you connect the dock using USB-C.

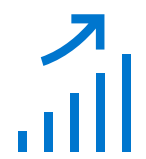

¹Within Dell Power Manager software, selecting ExpressCharge can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

WHAT'S NEW

DELL THUNDERBOLT™ DOCK – WD22TB4

Boost your PC's power on the world's first modular Thunderbolt™ 4 dock¹ with a future-ready design.

ENHANCED PRODUCTIVITY

Dell ExpressCharge allows you to charge up to 80% in one hour². Increase your power delivery and charge faster with a dock that delivers up to 130W of power.

FUTURE-READY DESIGN

Get the latest in connectivity with two Thunderbolt™ 4 ports for even more flexibility.

INTELLIGENT MANAGEMENT

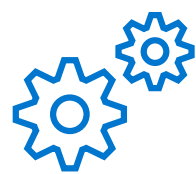

Streamline the deployment and management of Dell docks with a single firmware, regardless of their connectivity. Perform firmware updates in minutes without needing to reboot the system.

¹World's first modular Thunderbolt™ 4 dock - based on Dell analysis, Nov 2021. ² Within Dell Power Manager software, selecting ExpressCharge™ can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

WHAT'S NEW

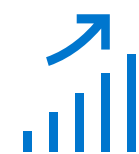

DELL UNIVERSAL DOCK – UD22

Build the workspace that works for you with the ultimate universal dock for any USB-C laptop, featuring fast charging, the highest number of ports¹ and the ability to support the highest number of displays.¹

CONSISTENTLY SEAMLESS EXPERIENCE

Connect to any USB-C laptop and run any operating system regardless of the manufacturer. Achieve a fast-charging experience with 96W power delivery for all laptops.

UNCOMPROMISED PRODUCTIVITY

Maximize productivity with the ability to connect four 4K displays at one time. Create a productive and flexible environment with the highest number of ports on any universal dock¹, with 4 x USB-A ports, 2 x USB-C ports and 4 video ports.

INTELLIGENT MANAGEMENT

Connect your laptop and get started quickly even when the DisplayLink driver is not installed, thanks to the additional support for Hybrid DP Alt mode.

FEATURES

FEATURE	WHY IT MATTERS
 PXE Boot	Allows for your PC to be imaged from a server on the network.
 Wake-On-LAN	Allows IT administrators to wake a PC remotely using a signal when the PC is on the corporate network.
 MAC Address Pass-Through	Allows IT administrators to uniquely identify PCs on a corporate network with a system-unique MAC (media access control) address in the system BIOS replacing the MAC address of the device. MAC Address Pass-Through not available with non-Dell systems.
 Port Disablement	Allows IT administrators to configure the system BIOS to disable downstream ports on the device to keep confidential information secure.
 Dell ExpressCharge™	Provides up to 80% battery charge in just one hour.
 Power Delivery up to 90W	Single cable offers data, audio, video and power to Latitudes and XPS laptops – up to 90W.
 Power Delivery up to 210W	Single cable offers data, audio, video and power to Precision, Latitudes and XPS laptops – up to 210W.
 Wake-On-Plug	Automatically turns on your laptop – that is powered down or on standby – and connects to the peripherals attached when you connect the USB-C cable to your laptop.
 Power button sync	Power up / wake up the laptop and monitor by pressing the power button on the dock. Applicable with select Dell notebook computers only.
 Dell Performance Mode	Allows select Dell Precision Mobile Workstations to provide native graphics output from discrete GPUs for up to 8K resolution or three 4K external displays while simultaneously providing 10 Gbps of USB data through a single cable.
 Remote firmware updates	Deploy firmware updates remotely with existing tools like SCCM or use Dell Command Update to automatically check for the latest BIOS, firmware or drivers required for the dock and PC.
 Error messages and dock event notifications	Dell Power Manager helps users understand when the power adapter connected to the dock is not capable of providing enough power to both the laptop and the dock.

CARRYING CASES

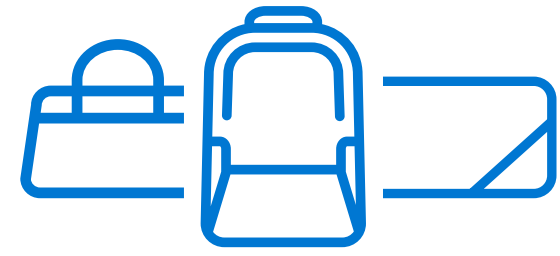

CARRYING CASES

Protect and carry your laptop in style. Choose between backpacks, briefcases and sleeves that are designed with sustainability and functionality in mind.

Features at a glance [➤](#)

BENEFITS AT A GLANCE

PROTECT electronics
Durable **EVA foam cushioning** keeps your devices protected.

EcoLoop™

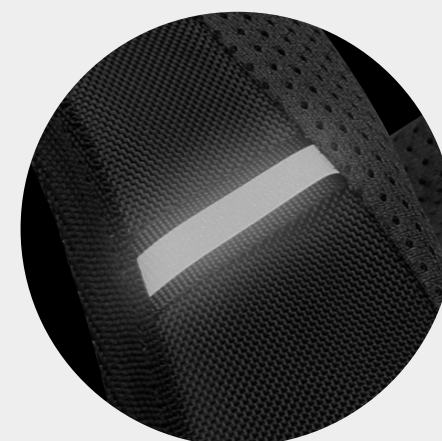

Designed with the environment in mind our EcoLoop series are manufactured with select materials and/or processes that help reduce environmental impact¹

TRAVEL at ease
Luggage handle pass-through to make travel easier.

CONVENIENCE
Convenient charging pass-through makes it easy to charge when you're on the go.

PROTECT the user
Reflective accents provide increased visibility during low-light conditions.

PROTECT carried items
Built with long-lasting, **water-resistant materials** that withstand the demands of everyday commuting.

* All images are for illustration purpose only. Features availability varies with different carrying cases.
¹ Sustainable practices and functionality vary by different products and models.

CREATED WITH THE ENVIRONMENT IN MIND

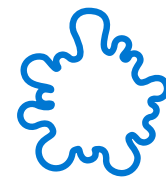

How Dell Carrying Cases make a difference

EcoLoop™

True to our Dell Technologies 2030 Sustainability Moonshot goals, all our EcoLoop™ label products are made with recycled materials and/or are manufactured using at least one of the following 5 processes that reduce the environmental impact.¹

OCEAN-BOUND PLASTICS

RESPONSIBLE DYEING PROCESS

RECYCLED WEATHERPROOFING

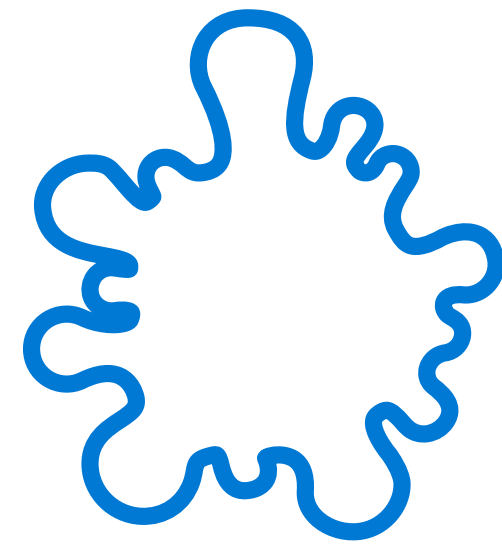

RECYCLED POLYETHYLENE TEREPHTHALATE (RPET)

RECYCLED CONTENT PACKAGING

¹Sustainable practices vary by product model; please refer to the product pages on Dell.com.

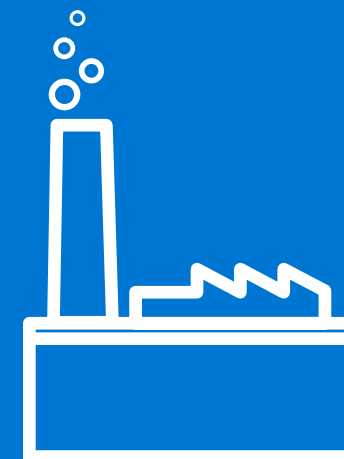

Responsible Dyeing Process

Through our responsible dyeing process, fabrics are woven from solution-dyed yarns, incorporating colour directly into the fibers prior to weaving. This process can generate up to **90% less wastewater**, up to **62% less CO₂ emissions**, and use up to **29% less energy** than traditional dyeing processes.³

³ Based on internal analysis of published data on solution-dyed virgin polyester, January 2022.

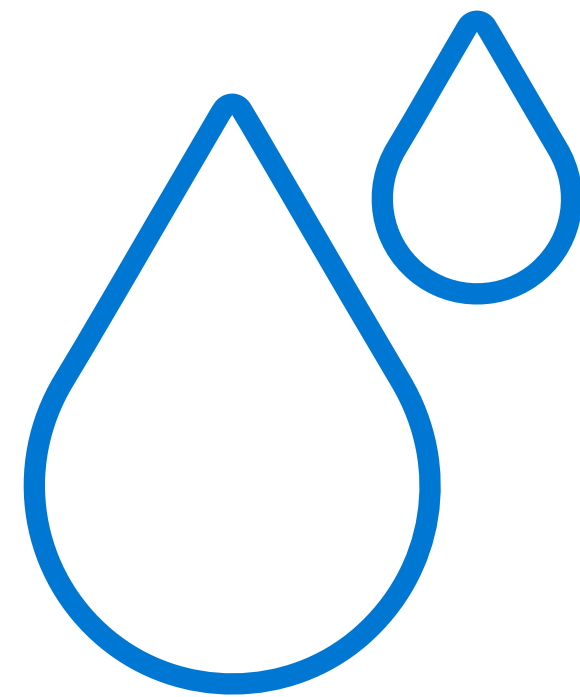

**90% less
wastewater**

**up to 62% less
CO₂ emissions**

**up to 29%
less energy**

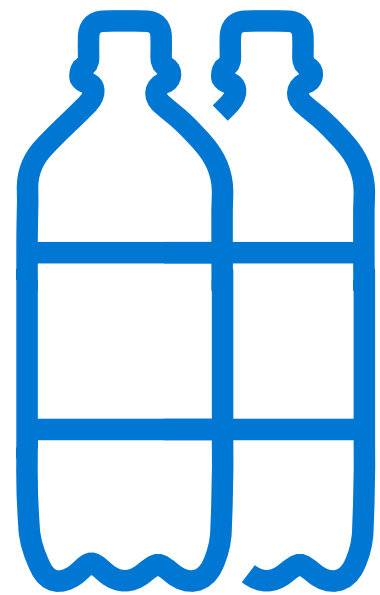

Recycled Weatherproofing

Fabric-coating is made from recycled PVB film⁴ recovered from used car windshields, which helps keep **materials out of landfills**.

⁴ Based on Internal Analysis of published data on recycled PVB film recovered from used car windshields, March 2022.

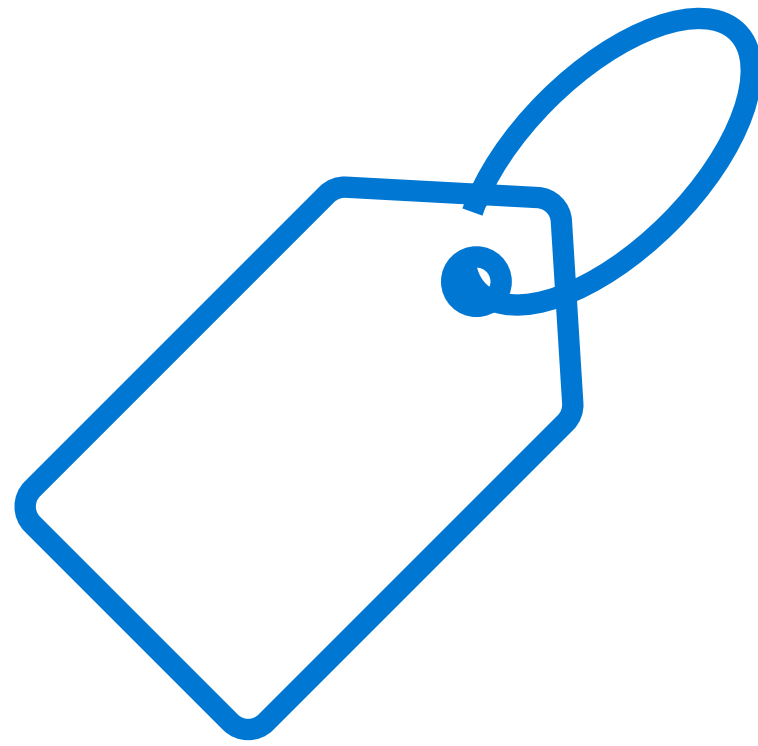

Recycled Polyethylene Terephthalate (rPET)

Selected products are constructed partially from **post-consumer recycled** PET (rPET). By using recycled materials, we've diverted 12 metric tons of recycled plastic, equivalent to 1 million plastic bottles.⁵

⁵ Based on internal analysis, Jan. 2022. Plastic bottle estimate assumes a 500ml plastic water bottle.

Recycled Content Packaging

Our hang tags, hang loops, and plastic bags are constructed using **100% recycled content.**

Ocean-bound Plastic

By incorporating ocean-bound plastics into select products, we've diverted 132 metric tons of ocean-bound plastic² from ocean coastlines and major waterways. That's equivalent to 14 million plastic water bottles.²

Each year, an estimated 11 million metric tons of plastic waste enter the Earth's Oceans.⁵ To help remedy the ocean plastic crisis, Dell Pro series exterior main fabric is made with 100% ocean-bound plastic certified by OceanCycle™.⁶

EcoLoop™

*Only applicable to the exterior main fabric on Dell Pro series

OceanCycle Certification Criteria

Material Collection:

Fits within OceanCycle's standards of proximity to the coastline in an area of mismanaged waste.

Ethically Sourced:

Must be post-consumer waste from the location of origin and collected in an ethical manner ensuring no harmful child labor and fair wages waste.

Environmental Practices:

Wastewater and chemicals must be disposed properly.

Documentation:

Compliance with Ocean Cycle's end-to-end traceability, documented from bottle collection through to manufacturing.

² Based on internal analysis, Jan. 2022. Plastic bottle estimate assumes a 500ml plastic water bottle
⁵ Source : Source: <https://oceancycle.co/ocean-bound-plastic-certification/>
⁶ OceanCycle Certified™ purchased yarn. Ocean-bound plastic is waste collected within 50 kilometers (30 miles) of an ocean coastline or major waterway.

DELL PAIR

Dell Pair¹ is the simple and secure way to connect with your accessories.

Supported PCs and Accessories

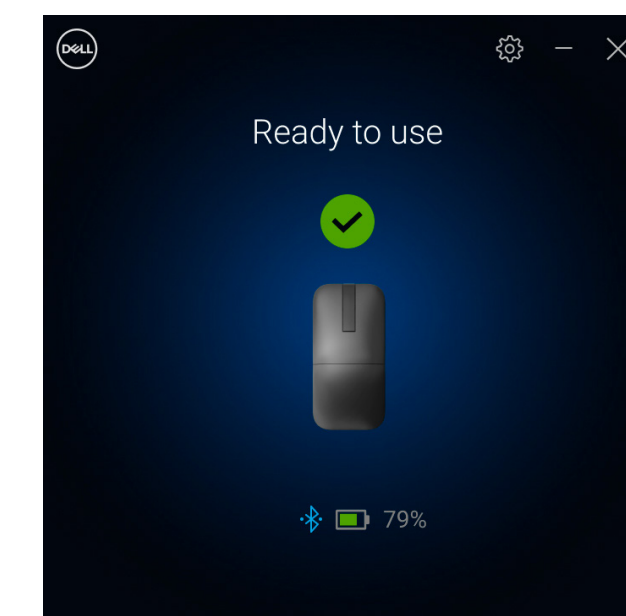

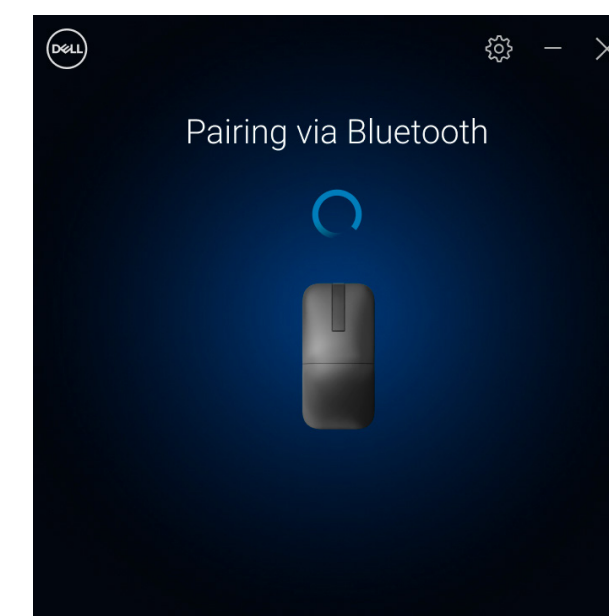

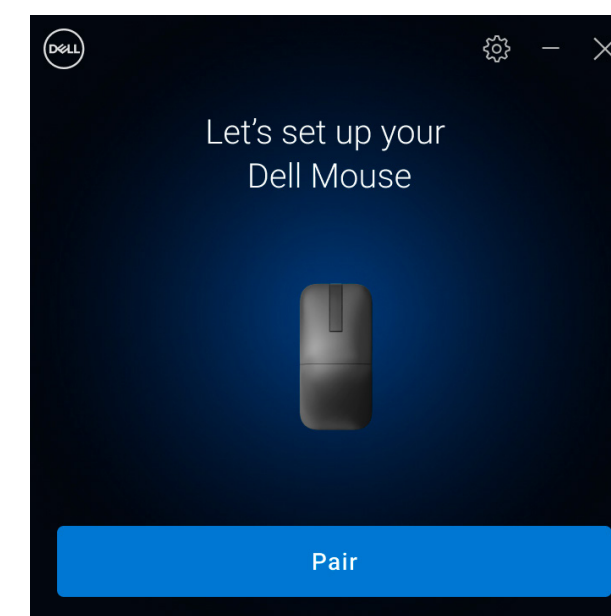

SECURE AND SEAMLESS CONNECTION

Stay protected and minimize risk of hacking while pairing your accessories. This software meets the [strongest security standards](#) for Bluetooth[®] low-energy pairing of keyboard and mice².

EASY SET UP

Simply place your Dell accessories¹ next to a compatible Dell PC. Accessories are detected automatically and can be paired with only one click.³

¹ Dell Pair is available with select commercial and consumer PCs; availability and functionality vary by model. For more details visit [Dell.com/support/kbdoc/000201693](https://dell.com/support/kbdoc/000201693)
² Based on Dell Analysis, October 2022. For more details visit [Guide to Bluetooth Security https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-121r2-upd1.pdf](https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-121r2-upd1.pdf)
³ Based on initial pairing.

STRONGEST BLUETOOTH® SECURITY STANDARDS

Bluetooth Security Level 4

- Dell Pair utilizes authenticated Bluetooth® Low Energy(BLE) Secure Connections pairing
- Reduced proximity range for pairing, making it suitable for dense wireless environments
- Automated passcode exchange
- 256-bit secure key exchange encryption
- Dell Pair achieves Level 4 security even for keyboards & mice¹

¹ Based on Dell Analysis. October 2022.
