It's possible on your Intel® AI PC

Tap into greater potential with Lenovo AI PCs

Discover the future of business computing with Lenovo's AI-ready PCs

Lenovo's trusted portfolio of AI-ready Lenovo ThinkPad and Lenovo ThinkBook laptops deliver the perfect balance of performance and power efficiency with Intel® Core™ Ultra processors powering Intel vPro®, Evo™ Edition platform. Built with Lenovo reliability, they allow your workforce to enjoy better productivity, advanced collaboration, state-of-the-art content creation, and improved security – without experiencing performance issues.

The **Lenovo ThinkPad X1 Carbon**, **Lenovo ThinkPad X1 2-in-1** and **Lenovo ThinkBook 13x** laptops maximize user productivity, with the performance to run leading AI applications like Microsoft Copilot, Microsoft Windows Studio Effects, and Lenovo View. Featuring, Intel® Core™ Ultra processors powering Intel vPro®, Evo™ Edition platform, users get industry-leading security features, boost AI performance, and supercharge productivity with Microsoft Windows 11 and Microsoft Copilot.

Through them you can:

Help employees deliver their best work with hardware that supports AI to make routine tasks a breeze and inspire creativity to deliver genuine business impact.

Protect your most valuable assets with Lenovo's AI-powered cybersecurity suite that ensures innovation doesn't come before vulnerability.

Streamline IT operations, allowing your IT department to customize its PC fleet to meet manageability needs, maximizing resources and reducing costs.

Partner with a trusted AI leader that's backed with years of experience, an industry-led portfolio and zero-trust supply chain.

Why choose Lenovo?

Our expert team can guide you to choosing the right AI-ready Lenovo laptops for your business and IT estate – and make them accessible with Lenovo services and support.

Premier Support Plus

Lenovo technicians provide best-in-class technical skills and problem-solving for your business hardware and software. Available 24 hours a day, 7 days a week by phone, chat, or email.

Lenovo TruScale Device as a Service

Put cutting-edge Lenovo AI PC technology into your users' hands with Lenovo TruScale DaaS, a pay-as-you-go model with affordable, regular payments.

Sustainability

Lenovo CO₂ Offset and Asset Recovery Services helps you manage your IT carbon footprint, by offsetting the carbon cost and taking future emissions into consideration. When the time comes to dispose of devices at end-of-life, these services also help to mitigate the environmental and data security risk.

Make the move to AI-ready PCs and bring the full power of AI to your business. Contact us to learn more and take the first step.
