

D&H & T-MOBILE 5G CONNECTED LAPTOP PROGRAM

Empowering the Modern Enterprise

In today's digital-first business landscape, connectivity is the lifeblood of productivity and innovation. D&H and T-Mobile's 5G Connected Laptop Program offers enterprises a comprehensive solution to equip their workforce with cutting-edge technology and unparalleled connectivity. This program combines the power of T-Mobile's extensive 5G network with leading laptop brands to create a seamless, secure, and efficient work environment for employees, whether they're in the office, at home, or on the go.

Unleashing Productivity with 5G

T-Mobile's 5G network provides the backbone for enhanced business productivity. With significantly faster data speeds and lower latency, employees can collaborate in real-time, transfer large files effortlessly, and engage in high-quality video conferencing from virtually anywhere. This robust connectivity ensures that your team can leverage AI-powered cloud services and data-intensive applications without interruption, driving operational efficiency and informed decision-making.

Unmatched Mobility and Flexibility

The program's extensive 5G coverage empowers true workplace flexibility. Employees can maintain high-speed connectivity beyond traditional office environments, supporting remote work, field operations, and business travel without compromising on connection quality or speed. This flexibility not only enhances employee satisfaction but also enables businesses to adapt quickly to changing work dynamics.

Enhanced Security for Peace of Mind

Security is paramount in our interconnected world. T-Mobile's program reduces reliance on potentially unsecured public Wi-Fi networks. Additionally, with options for T-Mobile SASE (Secure Access Service Edge) and T-SIM Secure, enterprises can add layers of protection for corporate data, insulating sensitive information from internet-based threats and ensuring data integrity and confidentiality.

Cost-Effective Implementation

T-Mobile understands the importance of balancing innovation with fiscal responsibility. Our program offers a range of plans to suit various business needs, with monthly rates starting from \$25 per line. What sets this program apart is the customer subsidy on laptops, which can reach up to \$400 for selected plans. This subsidy significantly reduces the barrier to entry for enterprises looking to upgrade their technology infrastructure.

Tailored Plans for Every Business

The 5G Connected Laptop Program offers four tiers of service, each designed to meet different business requirements. All plans include unlimited T-Mobile 5G access, high-speed data allowances ranging from 75GB to 125GB, and 5GB of global connectivity. Higher-tier plans also include T-SIM Secure as a standard feature, further enhancing the security posture of your mobile workforce.

D&H & T-MOBILE 5G CONNECTED LAPTOP PROGRAM

Empowering the Modern Enterprise

TIERED SAVINGS TO SUIT YOUR NEEDS

FEATURES	\$25/MONTH PER LINE	\$35/MONTH PER LINE	\$40/MONTH PER LINE	\$50/MONTH PER LINE

Limited-time offer; subject to change. Tax on pre-credit price due at sale. Qualifying credit, business account, new line of service & 3-year agreement required. \$25 SIM kit may be required. If you have cancelled lines in past 90 days, you may need to reactivate them first. Up to \$400 subsidy. May not be combinable with some offers or discounts. Laptop Plans: During congestion, customers on these plans may notice speeds lower than other customers due to data prioritization. Qualifying business account, credit approval, deposit, and \$20 SIM starter kit or, in stores, \$35 device connection charge may be required. Taxes and fees additional (including \$0.12/line Monthly Regulatory Programs and \$1.28/line Telco Recovery Fee) unless you already have a tax-inclusive voice line. Compatible device may be required for certain features. Data: High-speed data on our network up to allotment then max 600kbps speeds. We notify you of approaching use thresholds via email. See account for usage. Roaming: U.S. roaming and on-network data allotments differ; includes 200 MB domestic roaming. Partial megabytes rounded up. International Roaming: Up to 5GB high-speed data in 215+ countries and destinations; otherwise standard speeds approx. 256 kbps; see www.t-mobile.com for included destinations (subject to change at our discretion). In Canada/Mexico, high-speed data up to 5GB, then unlimited at max 128kbps speeds. Not for extended international use; you must reside in the U.S. and primary usage must occur on our U.S. network. Device must register on our network before international use. Coverage not available in some areas; we are not responsible for our partners' networks. Service may be terminated or restricted for excessive roaming. Video streaming at up to 2.5Mbps (SD); may affect speed of video downloads. For best performance, leave video streaming applications at default automatic resolution setting. Security and productivity filtering blocks select content. See Sales Rep or T-Mobile.com/filtering for content filtering options and details.

By choosing T-Mobile's 5G Connected Laptop Program, enterprises gain access to a suite of benefits that drive productivity, enhance security, and provide the flexibility needed in today's dynamic business environment. With options from leading manufacturers like Lenovo, Microsoft Surface, HP, and Dell, businesses can select the devices that best fit their needs while leveraging T-Mobile's powerful 5G network and comprehensive security features.

Embrace the future of work with T-Mobile's 5G Connected Laptop Program – where connectivity meets productivity, security, and cost-effectiveness.
