

UPS CROSS-REFERENCE: BEST SELLERS

View the complete line of CyberPower UPS Systems and how they compare at www.cyberpowersystems.com

Smart App Online UPS Series

These models offer generator compatibility and deliver clean AC power with zero transfer time. Used in applications with extremely sensitive equipment and high-end IT equipment.

Smart App Sinewave UPS Series

Sine wave output, Active PFC power source compatibility, and correct minor power fluctuations without switching to battery. Most commonly used for power back up of servers, networks, and storage equipment.
