

# Accelerate Innovation with the HPE Greenlake Edge-to-Cloud Platform

HPE Greenlake is the cloud that comes to you, giving your business access to assets and resources for co-marketing campaign delivery.

## HOW DOES HPE GREENLAKE HELP BUSINESSES?

- **Get the cloud experience everywhere** for on-premises IT with the point-and-click, self-service, on-demand qualities desired in a per use model
- **Unify the hybrid experience** through integration across hybrid, private, and multiple cloud environments—transforming IT operations to cloud operations
- **Gain superior control and insight** by enhancing governance, control, and visibility with comprehensive compliance capabilities, along with insights and analytics to help optimize costs

## SOLVING COMPLEX IT WITH GREENLAKE:

Greenlake helps unlock capital, boost operational and financial flexibility, and free up talent to accelerate what's next.

75%

shorter time to deploy digital projects

85%

less unplanned downtime

30-40%

CAPEX savings due to eliminated need for overprovisioning

40%

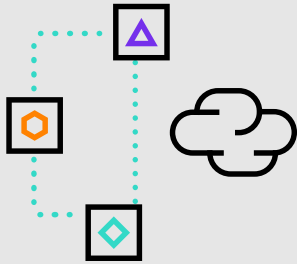

increased IT team productivity by reducing the support load on IT

## HPE GREENLAKE RESPECTS YOUR DATA WITH MODERNIZATION

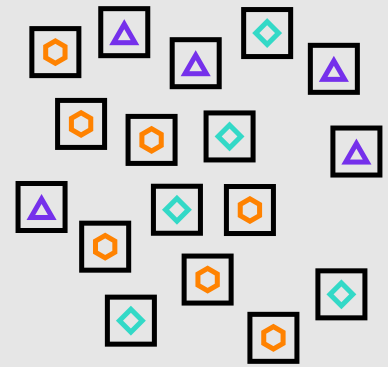

- Eliminate data silos across multi-gen IT
- Ensure accessibility of data wherever it resides
- Unleash data as a lifeforce to create rich experiences, accelerate decision velocity, and deliver continuous innovation to move business forward, faster

But, cloud transformation is far from complete.

Apps that can easily move to the cloud, already have.

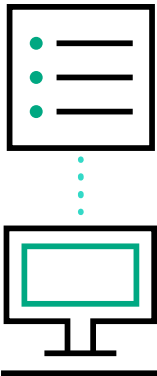

However, **62%** of applications are deployed in on-premise Private Cloud or NonCloud environments today.

## GETTING STARTED IS EASY, SIMPLY:

①

**CHOOSE**

Services in just a few clicks

②

**ORDER**

Arrival in as little as 14 days

③

**INSTALL**

Experts install and configure on-site

④ **GO!**

Launch within minutes of connecting to the network

Learn more about how HPE Greenlake delivers the **simplicity, agility, and economics** of a public cloud, and the **security, control, and performance** benefits of on-premises IT on **your** terms.
