

Powering Productivity and Collaboration

Equip your hybrid workforce with confidence

More work than ever is being done remotely, and while 80% of workers believe their productivity hasn't been impacted by the change of scenery, less than half of employers share that optimism.¹

Ensuring your employees have the correct tools is essential to keeping them on track and collaborating just as they would in-person. Lenovo's modern devices and Windows 11 Pro for business keep your employees from hitting roadblocks, and give you peace of mind knowing they're fully equipped, ready to tackle any obstacle that comes their way.

 Windows 11

Windows 11 Pro was designed for hybrid work

Collaborate Smarter

Enjoy a seamless experience with Microsoft Teams and Lenovo devices, including collaboration features integrated right into your taskbar.

Here are just a few of the features at your fingertips when using Microsoft Teams integrated with Windows 11 Pro for business:

Protect Your Data

- Enterprise device management protects data on every device

Focus on Your Meetings

- Intelligent noise cancelling
- Dynamic background blur

Manage Your Mic

- Taskbar-integrated mute / unmute function

Show Files in an Instant

- Instantly share applications/windows through taskbar

Harness the True Power of your Hybrid Workforce

Lenovo recommends Windows 11 Pro for business.

Improved UI is just the start. With employees spending 2.5x more time on average in virtual meetings since the start of the pandemic², supporting remote and hybrid employees can present a challenge for IT teams. Lenovo PCs equipped with Windows 11 are ready to keep your people productive in a work-from-anywhere world, with comprehensive built-in security, business-grade tools, and consistent management.

Hardcore Hardware

Lenovo Devices are built to weather the storm. Long lasting battery life, adaptable UI, and next gen processing power give employees the ability to tackle any task from any place. Combined with Windows 11 Pro for business, employees enjoy enhanced connectivity and collaborative abilities with the ultra-capable hardware to back it up.

Device Recommendations

ThinkBook 15 Gen 4

Packs heavy-duty power and smart features in a sleek, ergonomic frame.

- Up to 12th Gen Intel® Core™ i7 Processor with Intel vPro® Essentials
- Hero start screen with Windows 11 for focused, intuitive user interface
- Wide range of port options, including USB-C and Thunderbolt™ 4

ThinkPad Z16

The definition of progressive performance, combining simple beauty and exceptional power.

- Powered by the AMD Ryzen™ PRO R9 6950 H-Series Processor
- Optional ultra-thin discrete AMD Radeon™ RX6500M with SmartShift technology
- Super-narrow bezel design enables 92+% screen-to-body ratio

ThinkPad X1 Yoga Gen 7

Reimagined convertible design provides an improved end-user experience.

- Intel® Evo™ certification for responsiveness, performance, and readiness
- 11th generation Intel® Iris® Plus X^e Graphics
- Up to 32GB memory offers formidable performance

The Power of Productivity

Outfitting your employees properly means you never have to worry about missed deadlines due to faulty or unreliable equipment. Windows 11 Pro for business' built-in organizational tools and Lenovo device's exceptional power allow for difficult, sensitive work to be done quickly and reliably from anywhere, driving productivity even in hybrid work environments.

The Dream Team

Able to support employees any time, any place. Windows 11 intuitive UI and collaborative tools keep workers forging ahead, while Lenovo hardware ensures reliable connectivity and security.
