# Our products and partnerships

## Classroom management solutions

- Encourage positive redirection and keep students safe with easy-to-use monitoring features, including screen monitoring, limit web, and blank screen.
- Increase student engagement with features like messaging, raise hand, and share screen.
- Push website and battery status features help educators manage multiple classroom activities and maximize learning.
- Built for growth, driven by innovation, and designed for simplicity, LanSchool offers easy implementation, cloud-optimized feature sets, and streamlined onboarding.

## Filtering and safety solutions

- AI-driven content filtering with customizable policies based on lists of URLs, keywords, file types, and apps to block access for specific groups or users. The filter is current with over 90 categories and 40 languages.
- Threat protection to keep school networks safer from other digital dangers, including malware, phishing, and viruses.
- Easily configure policies and manage one or multiple schools through a single dashboard. Lenovo NetFilter is compatible with Mac, Windows, and Chromebooks on the school network or remotely.
- Upgrade to Lenovo NetFilter+ to access keystroke monitoring that detects signs of digital dangers and alerts educators for early intervention.

## Hardware and software bundle solutions

- Receive free LanSchool classroom management licenses with the purchase of eligible Lenovo Education computers or VR Classroom 2 headsets.
- Support, upgrades, and free online training are included in the bundle offering.
- Integration with VR Classroom 2 allows you to launch apps and content simultaneously on multiple headsets.
- With LanSchool and Lenovo, enjoy a constantly evolving roster of features and award-winning devices to help prepare students for college and career.
