Advance Your Business with AI

Empower your people with unique AI experiences¹
and built-in security features

AI IS POWERING THE NEXT ERA OF BUSINESS

Business leaders are prioritizing smart devices that boost efficiency,
strengthen security, and keep teams moving forward.

93% of leaders say AI-powered
devices improve workflow efficiency

72% of leaders are prioritizing
on-device AI processing when
choosing their next devices

82% of leaders want AI-powered
threat detection in their devices

UNIQUE AI EXPERIENCES¹ WITH COPILOT+PCs

Copilot+ PCs offer enhanced AI business solutions and exclusive experiences
across productivity, innovation, search, and communications.

Amplify your impact across language barriers

Understand almost any call, conversation, or recording
using Live Captions with real-time translation from
40+ languages into English and 25+ languages
into Chinese (Simplified).

Retrace your steps with Recall (preview)⁵

Searching for a document, email or webpage can
take time. With Recall (preview), just describe
what you remember and find what you need, fast.

Show up better on every call

Use Windows Studio Effects to
enhance video calls with features
like eye contact correction, back-
ground blur, voice focus, and more.

Act on what you see

Analyze text and images on your
screen with Click to Do (preview)
to quickly take actions like copy,
share, or rewrite, all in one click.

Find what you need fast and easy

Find documents, images, and
files fast with improved Windows
search in Windows 11 Pro through
simple descriptions.
