HELP YOUR CUSTOMERS GET THE BEST PERSPECTIVE

HIGH QUALITY VIDEO
Sight's dual lenses with 315° video capture and up to 4k resolution ensure everyone has the best view possible.

CRYSTAL CLEAR AUDIO
Seven beamforming mics detect active speakers based on voice direction within a pickup range of 7.5 ft (2.3 m).

EQUITABLE COMPANION CAMERA
Sight works with Rally Bar or Rally Bar Mini to provide a responsive front-and-center view of everyone in the room.

GREAT FOR LARGE ROOMS
Sight is designed for medium-to-large rooms, intelligently detecting and capturing conversation and nonverbals clearly, all around the table.

TRACKS CONVERSATIONS NATURALLY
Adaptive intelligence chooses the best view between Sight and your video bar, tracking conversations as they move between participants.[1]

CLEAN AND SECURE INSTALLATION
Sight comes with a table, grommet, and tripod mount to support easy, clean installation that fits your customer's unique needs.

[1] Smart Switching available with future software update. See here for details.
