

msi X ESPORTS

Esports viewership is projected to grow by 17.5% to 31.4 million viewers from 2022 to the end of 2023, according to eMarketer, solidifying the fact that Esports is a sport worth watching. MSI supports this growth and continues to champion the industry as the most trusted name in education systems, gaming, and esports. MSI has always been proud to support the rapidly growing Esports world, with over 340 schools provided access to the entire fleet of MSI solutions.
