

Empower Your Team to Do More

With modern Lenovo devices.

It's time to get behind commercial solutions that improve productivity, offer easy management for IT, and help you retain employees. With reliable performance, rock solid security, and cutting-edge new features, Lenovo devices, powered by Intel processors with Windows 11 Pro for business, are designed for easy deployment—wherever your teams work.

 **Windows 11**

Lenovo recommends Windows 11 Pro for business

Work from Anywhere Security, Right Out of the Box

Windows 11 is Zero Trust ready with default security settings including hardware-based isolation, encryption, and malware prevention. Lenovo ThinkShield offers additional protection—from chip to cloud on laptops and 2-in-1s, like **ThinkPad X1 Yoga Gen 8**, engineered to work from anywhere.

Productivity, Versatility, and Collaboration

Windows 11 on modern Lenovo devices—like **ThinkBook 14 Gen 5+ i** which features AI-based noise cancellation—improves productivity and collaboration. In addition, Intel® Unison™ enables seamless connectivity with iOS and Android smartphones for talking, texting and photo/file sharing right on your Intel® Evo™-certified laptop.*

Simplicity & Low Total Cost of Ownership

Windows Autopilot and Microsoft Intune enable zero-touch deployment of remote work devices like **ThinkBook 15 Gen 5i**. Remote help offers secure, real-time support through the cloud.
