JABRA BUSINESS SOLUTIONS

Go pro.
Wherever you work.

Flexible working was already on the rise, but recent world events have given it a significant boost. It has the power to completely change your team's working life, but only when they have the best tools for the job. For a better connected and even more productive team, trust the experts.

The Working Challenge

The Jabra Solution

1

Staying connected

You want to enable your team to work from anywhere, with an instant, seamless connection to your team.

UC the distinction

Jabra devices are certified for compatibility with all leading UC providers. We guarantee instant integration and plug-and-play connectivity.

2

Data security

You want to relax their working environment, but keep data security tight.

Better peace of mind

- Patented pairing technology
- Authentication
- End-to-end encryption

3

Remote management

You want to keep your Jabra tech up-to-date with the very latest features, maximizing their value and increasing flexibility for you and your team.

At the tap of a button

Jabra Xpress software helps you manage and update the firmware across your whole fleet of devices, wherever they are, right from your desktop.

All of the above, and the team will look great using it

Jabra certified devices offer all of this and more – so your team don't need to sacrifice professional quality for style.
